

Quality Policy

The policy of textile company Texotech s.r.o. Rimice, producing traditional woven technical textiles, is focused on delivering products that meet our customers' full requirements with aim to preserve the company's traditionally good reputation.

We want to provide our customers with products of the highest quality that meet all relevant requirements of the technical regulations and requirements.

We achieve the highest quality of our products primarily by:

- Purchasing quality raw products from renown suppliers
- Using and modernizing purposely build quality production facilities
- Constantly improving quality management system
- Improving and streamlining management processes
- Maintaining skilled workers and constantly increasing their expertise

We always act with high proficiency with our customers as well as suppliers and we continuously strive to improve our mutual communication and supplier-customer relationships.

In current competitive and challenging market we want:

- Maintain our position of one of the leaders of product suppliers in our field of technical textiles and yarns as well as related services
- Maintain and increase advanced level of technical background in field of material supply and other services provided by elite domestic and international suppliers.

Company leadership is committed to comply with valid legislation and all related laws and standards inclusive of environmental protection.

In accordance with this quality policy the company leadership will provide quality related targets and regularly audit the system functionality.
